PROFESSIONAL SUMMARY

Dedicated and results-driven Full-Stack & Frontend Developer and undergraduate BIT student with extensive hands-on experience building modern, responsive, and high-performance web applications. Proven track record of delivering scalable solutions through freelance projects and professional internships, utilizing the MERN stack, Next.js, and JavaScript/TypeScript ecosystems. Adept at translating complex requirements into clean, maintainable user interfaces and secure backend architectures.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C

Frameworks & Libraries: React.js, Next.js, Express.js, Node.js, Vite, Tailwind CSS

Databases & ORM: MongoDB, PostgreSQL, Prisma, Supabase

Tools & Platforms: Git, GitHub, Vercel, Render, Cloudinary

Core Concepts: RESTful APIs, JWT Authentication, Object-Oriented Analysis & Design (OOAD), State Management, Responsive Web Design

PROFESSIONAL EXPERIENCE

Frontend Developer Intern — Aarambha IT Research Center Pvt. Ltd.

3 Months

- Engineered and maintained responsive user interfaces for client-facing web applications using React.js and modern CSS frameworks.
- Collaborated with backend developers to integrate RESTful APIs, ensuring smooth data flow and dynamic UI rendering.
- Optimized web performance, asset delivery, and cross-browser compatibility to enhance overall user experience.
- Participated in code reviews, agile sprint planning, and debugging sessions to maintain high code quality standards.

Freelance Full-Stack Developer — Self-Employed

1 Year

- Delivered custom full-stack and frontend web solutions for various clients, managing projects from initial design conception to production deployment.
- Developed scalable web applications and management systems utilizing React, Next.js, Node.js, Express, and Tailwind CSS.
- Integrated third-party APIs, JWT authentication systems, and Cloudinary media storage solutions to deliver robust client applications.
- Maintained direct client communication to gather requirements, iterate on feedback, and ensure timely project deliveries.

EDUCATION

Bachelor of Information Technology (BIT) — Informatics College Pokhara

Expected 2026

London Metropolitan University

- Relevant Coursework:** Object-Oriented Analysis and Design (OOAD), Database Management Systems, Web Development.
- Designed and implemented full-stack web applications focusing on automation, efficient data management, and responsive UI architecture.

KEY PROJECTS

Luga Shop (Full-Stack E-Commerce Application)

MERN Stack, Tailwind CSS

- Architected and developed a professional full-stack fashion e-commerce platform supporting product browsing, category-based navigation, shopping carts, and wishlist management.
- Implemented secure user authentication (JWT), customer account management, order processing, refunds, and review moderation workflows.
- Created a comprehensive Admin Dashboard for managing products, categories, users, orders, support messages, and contact workflows.

Invoicing App / Invoice Generator

Node.js, Express, MongoDB, Cloudinary

- Built a lightweight, professional full-stack invoicing application backend and interface for creating, managing, and sending invoices, clients, and product records.
- Integrated Cloudinary for media asset/logo uploads and automated SMTP mail services for secure email delivery of notifications and generated PDF invoices.
- Implemented strict environment-based configuration and robust backend RESTful controllers ensuring secure data handling and user authentication.
